

Service-Learning Experiences Confirmation

Medical students are required to participate in 40 hours of a structured service-learning experience that combines community service with preparation and reflection. It is hoped that students will learn about community concerns in context, and will connect their service with their academic coursework, and their future roles as citizens and professionals. Seifer, DS. “Service-learning: Community-campus partnerships for health professions education.” Academic Medicine, 73(3):273-277(1998)
